

Playtesting Experiment 1 : Hannah Epstein.

- Missing comment after choosing Cheese Plate
- Hobbies node is inaccessible.
- Points are broken on most decision-making options.
- Points should go DOWN when player chooses Escargots.
- Points should go UP when player says that the my Little Pony Discord server is cool.
- Jeremy doesn't disappear during any of the endings.
- Intro dialogue (where the player takes a break from their thesis) should not be commented out in build export. It should only be commented out when programmers are running tests.
- Points should go UP when you ask about favorite anime.

(more notes to come later)
